Appendix

Road deaths from recent months are preliminary and subject to revision.

Road death

The road safety agencies in each jurisdiction use detailed criteria to define road crashes and road deaths. Briefly, a death is classified as resulting from a road crash if the crash occurred on a public road, is unintentional and the death occurred within 30 days from injuries sustained in the crash.

Fatality rates

Fatality rates per population are based on road deaths over the last 12-months, and the population at the midpoint of that period. Population estimates are sourced from ABS' National, state and territory population statistics. The midpoint population is interpolated if necessary.

Other sources for tables in this bulletin

The underlying database used to produce this bulletin — the Australian Road Deaths Database is available for data extraction at https://catalogue.data.infrastructure.gov.au/dataset/australian-road-deaths-database

Data sources

Data are obtained from:

- Transport for NSW
- Department of Transport, Victoria
- Department of Transport and Main Roads, Queensland
- Department for Infrastructure and Transport, SA
- Western Australia Police
- Department of State Growth, Tasmania
- Department of Infrastructure, Planning and Logistics, NT
- Transport Canberra and City Services Directorate, ACT
- Australian Bureau of Statistics (National, state and territory population)
